Background

From the **NJ Department of Education Memo** – August 18, 2021

**Local Educational Agency Guidance for Chapter 27 Emergency Virtual or Remote Instruction Programs for the 2021–2022 School Year (SY)**

The New Jersey Department of Education (Department) remains at the ready to assist every local educational agency (LEA) in returning to full-time, in-person instruction for the 2021–2022 SY. This includes providing LEAs with guidance in the event of declared emergencies resulting in a district-wide closure. The Department appreciates the challenges that LEAs had to overcome during the 2020–2021 SY as they faced a myriad of decisions affecting both the safety of their students and staff as well as the instructional experience. The Department is encouraging LEAs to reflect upon their experiences with virtual and remote instruction when planning for the 2021–2022 SY.

In April 2020, Governor Murphy issued an executive order that became [P.L.2020, c.27](#). This law provides for the continuity of instruction in the event of a public-health related district closure so that LEAs can utilize virtual or remote instruction to satisfy the 180-day requirement pursuant to N.J.S.A. 18A:7F-9. **In order to provide transparency and ensure that New Jersey students continue to receive high quality, standards-based instruction, each school district, charter school, renaissance school project and Approved Private School for Students with Disabilities (APSSDs) must annually submit its proposed program for virtual or remote instruction (plan) to the Commissioner of Education.** This plan would be implemented during a district closure lasting more than three consecutive school days due to a declared state of emergency, declared public health emergency, or a directive by the appropriate health agency or officer to institute a public health-related closure. A superintendent must consult with the board of education, if practicable, prior to implementing the school district’s plan of virtual or remote instruction. A day of virtual or remote instruction, if instituted under a plan approved by the Commissioner of Education, is considered the equivalent of a full day of school attendance for the purposes of meeting State and local graduation requirements, awarding of course credit, and such other matters as determined by the Commissioner of Education.

LEAs must include the statutory requirements listed in the “LEA Guidance for Chapter 27 Emergency Virtual or Remote Instruction Programs for the 2021–2022 SY,” in their plans for virtual or remote instruction for the 2021–2022 school year. The 2021–2022 plans must be approved by the LEA’s board of education or board of trustees (board), submitted to the county office of education for review and approval, and posted on the LEA’s website. **The board-approved plan and checklist are due to the county office of education no later than October 29, 2021.** In the event that the LEA is directed to provide virtual or remote instruction before garnering county office approval, the approval date will be retroactive. Questions should be directed to the county office of education.
From the NJ Department of Health Memo – March 2, 2020

Many childcare centers, school administrators, teachers and parents within New Jersey are concerned about how the current outbreak of the 2019 Novel Coronavirus (COVID-19) will impact their communities and wish to take appropriate steps to mitigate any risks. The word “novel” means new. The Centers for Disease Control and Prevention (CDC) is working hard to learn as much as possible about this new virus so that they can better understand how it spreads and its associated illness. The New Jersey Department of Health is also working hard by developing guidance and Education materials should this new virus impact our residents.

Though the CDC considers COVID-19 to be a serious public health concern based on current information, the immediate health risk to the general U.S. public is considered low at this time. The CDC and the World Health Organization are closely monitoring the national and global situation and providing ongoing guidance. At this time, the CDC recommends avoiding nonessential travel to China, Iran, Italy and South Korea. There are additional countries with travel alerts. Updated travel information specific to COVID-19 can be found at https://www.cdc.gov/coronavirus/2019-ncov/travelers/index.html.

What is the difference between seasonal and novel coronavirus?
Coronaviruses are a family of viruses and there are different types of coronavirus within that family, much like there are different types of influenza viruses. Coronaviruses in general are not new and are a frequent cause of respiratory illnesses such as the common cold. Coronaviruses tend to circulate in the fall and winter months, similar to influenza. Most people get infected with these viruses at some point in their lives. The type of coronavirus that has recently emerged in Wuhan, China is a new type of coronavirus and is infecting people for the first time (which means that people do not have any immunity to it). This newly discovered virus is called SARS-CoV-2 and is causing a disease named COVID-19.

What are common symptoms of COVID-19?
Information to date suggests this virus is causing symptoms consistent with a respiratory illness such as cough, fever, and shortness of breath.

How is COVID-19 spread?
At this time, it’s unclear how easily or sustainably this virus is spreading between people. Typically, with most respiratory viruses, people are thought to be most contagious when they are most symptomatic (the sickest). Chinese officials report that sustained person-to-person spread in the community is occurring in China. Similar spread has been reported in other countries. Person-to-person spread in the United States has been detected but the risk to the general public remains low. Cases in healthcare settings, like hospitals, may also occur.

What measures can be taken to prevent COVID-19?
There is currently no vaccine to prevent COVID-19 infection. The best way to prevent infection is to avoid being exposed to this virus. However, as a reminder, CDC always recommends everyday preventive actions to help prevent the spread of respiratory viruses.

How is COVID-19 treated?
Currently, there is no specific antiviral treatment recommended for the coronavirus. There is no vaccine to prevent this virus, and the CDC advises that the best way to prevent infection is to avoid being exposed to this virus.

**How should schools prepare for the potential of a coronavirus outbreak in their community?**

To prepare for possible community transmission of COVID-19, the most important thing for schools to do now is **plan and prepare**. Interim Guidance for Administrators of US Childcare Programs and K-12 Schools to Plan, Prepare, and Respond to Coronavirus Disease 2019 (COVID-19) can be found at: [https://www.cdc.gov/coronavirus/2019-ncov/specific-groups/guidance-for-schools.html](https://www.cdc.gov/coronavirus/2019-ncov/specific-groups/guidance-for-schools.html).

- Review and update or develop your outbreak response/pandemic plan and share with stakeholders before an outbreak occurs.
- Establish procedures to ensure students and staff who become sick at school or arrive at school sick are sent home as soon as possible.
- Prepare for the potential of school closures or dismissals or cancellation of school events.
- Prepare to offer home instruction to students.
- Implement flexible attendance and sick leave policies.
- Establish relationships with local public health officials and identify points of contact.
- Create emergency communication plan and maintain up to date contact information for everyone in your communication chain.
- Establish a leadership team, identify essential staff functions, assign tasks and responsibilities.
- Plan workshops and training to educate staff on prevention measures.
- Continue to monitor current information from health officials.

**What should a school do when a student or staff presents with symptoms of COVID-19?**

- COVID-19 presents with signs and symptoms that may be indistinguishable from much more common respiratory viruses. At this time, respiratory illnesses are much more likely to be due to common viruses (e.g., influenza, common cold) than COVID-19. If a community (or more specifically, a school) has cases of COVID-19, local health officials will help identify those individuals and will follow up on next steps. Schools are not expected to screen students or staff to identify cases of COVID-19.
- Students with fever, cough, or difficulty breathing should be placed away from others and asked to wear a face mask until they can be sent home.
- Staff members should be sent home and advised to seek medical advice.
- Notify your local health department with any questions or concern about an ill student [www.localhealth.nj.gov](http://www.localhealth.nj.gov).
# THE FOUR STAGES OF THE CRISIS PLAN

According to the World Health Organization (WHO), the medical arm of the United Nations:

<table>
<thead>
<tr>
<th>Stage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Prevention – Mitigation</td>
</tr>
<tr>
<td>Preparedness</td>
</tr>
<tr>
<td>Response</td>
</tr>
<tr>
<td>Recovery</td>

Prevention – Mitigation

A. Review/Enhancement of Policies and Procedures
B. Training
C. Communications System
D. Prevention
A. Review and Enhancement of Policies and Procedures

1. Members of the PPC (Pandemic Preparedness Committee) are listed below and may be asked to meet as needed.

2. This plan may be modified based on new information and updates from the CDC, The NJ Health Department, and the NJDOE. Meetings may be held to review, update, and approve the Pandemic Crisis Plan for the upcoming school year and conduct tabletop emergency exercises. PPC committee members will review and understand their roles and responsibilities during a pandemic crisis.

3. Staff email and school based voice mail contact information will be posted/updated on the district website.

B. Training

1. Annual training for staff members may be conducted as needed each year. The following topics may be discussed (Appendices A and A1):
   i. Prevention
   ii. Preparation
   iii. Symptom Recognition and Action
   iv. Communication
v. Communication for Staff
vi. Plan Distribution
vii. Continuation of Instruction Development
viii. Grading Expectations
ix. Work Related Responsibilities During School Closure
x. Student Expectation Communication/Rubrics

C. Communications System

1. Campus Directors will ensure that Appendices A and A1 are included in the teacher handbook and Appendix A information will be included on the district website. They will also ensure that all handbooks outline the specific calling out procedures to identify pandemic related symptoms in staff and students.

2. The CSA will serve as the contact person for addressing questions and concerns related to the topic of pandemic planning;

3. Staff and student contact details will be annually updated into the organization’s student data management system for the purpose of accurate communication.

4. An electronic system will be used to communicate updates and information to all stakeholders in various formats (text, email, call, etc.).

D. Prevention

1. Each school nurse will disseminate messages about preventive hygiene and conduct respiratory etiquette programs (cough in your sleeve). Dissemination techniques will include, but not be limited to, classroom presentations, press releases, school-wide posters, videos and training to staff via in-services or faculty meetings, hand washing signs in all bathrooms. Teachers will be trained in symptom identification via the annual mandatory universal precautions training completed through the district’s online professional development portal.

2. The COO will work with custodians and Operations Leaders at each campus to ensure that all building bathrooms are continually stocked with soap and paper towels.

3. The COO will work with custodians and Operations Leaders at each campus to ensure that all student contact spaces are sanitized on a frequent and regular basis; hand washing signs will be posted.

4. Teachers, building staff, and administrators will remind students to cover their coughs and sneezes.

5. School nurses will encourage staff and students to obtain (on their own) flu shot vaccinations.

6. District health professionals are encouraged to obtain flu shot vaccinations annually.
### Preparedness

</tbody>
</table>
A. The Surveillance System

The following processes and procedures are to be practiced by individual schools within the district to continually report the absentee rates for staff and students in collaboration with local health departments once a pandemic has been confirmed as present in New Jersey or once such information has been requested by the Health Department and/or County Superintendent’s Office:

- School Nurses will authorize individual student and staff dismissal due to identified and pandemic related symptoms; any students and/or staff members with these symptoms will be sent home immediately and required to remain at home for the infectious period or clearance from a physician. Students awaiting parents/guardians due to illness will be held in a separate area in the Nurse’s Office or another designated location until pick up.

- The Operations Manager responsible for attendance reporting at each campus will forward, on a daily basis, the names of students who are absent due to pandemic related symptoms to the school nurse (Appendix B); the school nurse will document and monitor medically based absentee rates internally looking for increased reports of absence due to pandemic related illness (Appendix D). Absentee rates will not be reported to the Health Department unless greater than 15% of the population or unless requested by the Health Department and/or County Superintendent’s Office.

- School office staff will forward the names of who are absent due to pandemic related illness to the appropriate school nurse (Appendix B) on a daily basis; the school nurse will document and track medically based absentee rates internally looking for increased reports of absence due to pandemic related illness (Appendix D). Absentee rates will not be reported to the Health Department unless greater than 15% of the population or unless requested by the Health Department and/or County Superintendent’s Office. If feeling unwell during the school day, staff are also encouraged to visit the school nurse.

- Staff will be reminded to send sick students to the Nurse’s Office at each campus.

B. Updates, Research, and Precautions

1. The CSA will provide updates and the latest research information to staff, students, and parents via the district website and email.

2. Campus Directors at each school will cancel and announce cancellation of all large group activities including sporting events if directed to do so by the NJ Health Department and/or County Superintendent’s office.

3. Student seating will reflect social distancing to the fullest extent possible and in full compliance with official health guidelines; student desks will be separated if directed to do so by the NJ Health Department and/or County Superintendent’s office.

4. Each school nurse will disseminate messages about preventive hygiene and conduct respiratory etiquette programs (cough in your sleeve). Dissemination techniques will include, but not be limited to, classroom presentations, press releases, school-wide posters, videos and training to
staff via in-services or faculty meetings, hand washing signs in all bathrooms. Teachers will be trained in pandemic related symptom identification.

5. The COO will ensure that all Operations Leaders are ensuring their building bathrooms are continually stocked with soap and paper towels.

6. The COO will ensure that all Operations Leaders ensure all student contact spaces are sanitized on a daily basis; hand washing signs will be posted.

7. Teachers, building staff, and administrators will remind students to cover their coughs and sneezes.

8. Informational literature will be sent home identifying protocols parents should use to keep kids home (Appendix A).

9. District health professionals will be encouraged to obtain flu shot vaccinations.

10. Building administration will arrange for a standard informational mailing to go out to parents and guardians on the following topics (Appendix A).

   a. Prevention
   b. Preparation
   c. Pandemic Symptom Recognition and Action
   d. Communication

11. Building administration will remind staff to review this plan.

**EMERGENCY PREPAREDNESS: CURRICULUM & INSTRUCTION**

To ensure compliance with N.J.A.C. 6A:32-8.3, GOLCS instruction will incorporate the following:

- Grades 1-12: at least 4 hours per day of instructional time
- Kindergarten: at least 2.5 hours per day of instructional time

In order to ensure educational continuity in the event of an extended emergency, the following steps will be implemented by the teaching staff with the assistance of administration in conjunction with the coaches:

### C. Continuity of Student Learning Framework

---

Related Services and students receiving Eligible for Speech and Language Services: Google classroom lessons assigned by related services staff will target IEP goals and objectives; paper based assignments for students without device and/or wifi. Compensatory services provided as needed upon return to school.

Counseling: Support will be provided via phone conference if warranted to address relevant concerns.

Section 504: School Counselors to monitor and provide additional support per individual plans.

ADA Compliance: Assignments posted on the ADA compliant District Website.
VIRTUAL SCHOOL WORK DIRECTIONS

- If you have internet access at your home, please follow PLAN A.
- If you do not have internet access at your home, please follow PLAN B.

PLAN A: INTERNET AVAILABLE
Students who have internet access at home will utilize the following to complete their daily work plan:

- Google Classroom
- Online platforms (ALEKS, IREADY)
- Subject area (ELA, Math, Social Studies, Science) work packets provided by GOLCS.
- 30 minute Google Hangout with tutorial fellow.

Technology Information -- Please see the folder for 1-pager that includes:
- Your child’s passwords for all online platforms.
- Internet connectivity Step-by-Step and Troubleshooting Guide.
- Public Drive on campus homepage –
  - LES, DES, HMS link will be done by 5pm 3/9/2020

PLAN B - NO INTERNET AVAILABLE
Students who DO NOT have internet access will utilize the following to complete their daily work plan:

- Subject area (ELA, Math, Social Studies, Science) work packets provided by GOLCS.
- SRT Book/Log Reading 30–60 minute phone call with tutorial fellow.

PLAN A – STUDENT EXAMPLE:
Please fill out each daily plan block with the amount of time spent on each instructional block.

D. Stock

- The COO will ensure Operations Leaders at all campuses have ample storage of appropriate and adequate sanitation supplies such as soap, alcohol gel, and tissues in all bathrooms.
- All GOLCS schools will be stocked with hygienic supplies including soap, hand sanitizer with at least 60 percent alcohol (for staff and older children who can safely use hand sanitizer), paper towels, tissues, disinfectant wipes, and face masks.
- All GOLCS schools will maintain stock to last 60–90 days.
- All classrooms will receive hand sanitizing gel for regular use.
- Each GOLCS classroom, building entries and exits, near lunchrooms and bathrooms, and all frequently traveled spaces will have an installed hand sanitizer machine (at least 60% alcohol).
- Existing handwashing stations in all GOLCS facilities will be stocked with soap, water, and hand sanitizer.
- The COO will monitor and maintain an offsite data file backup for all electronically stored data on a regular basis.
# Response

<table>
<thead>
<tr>

<th>Protocol – Schools Open</th>
</tr>
</thead>
<tbody>
<tr>
<td>B</td>
<td>Protocol – Schools Closed &amp; Continuity of Learning</td>
</tr>
<tr>
<td>C</td>
<td>Other Core Operations</td>
</tr>
</tbody>
</table>
A. Protocol - Schools Open

When necessary, the Chief School Administrator will initiate the response process:

Central Office

● The CSA will send out messages via email and the district website informing parents that some students are sick but schools remain open, encouraging the school community to refer to handbooks, the school calendar, and school website for additional information.
● The CSA will provide updates and the latest research information to staff, students, and parents via the district website and email.

School Nurses

● Each school nurse will continue with surveillance reporting procedures, conduct student as well as staff assessments and provide updates to administration.
● Each school nurse will serve as the primary authority for sending home sick staff and students. Students and staff deemed ill and having pandemic related symptoms will not remain at school and should return only after their symptoms resolve and they are physically ready to return to school; they will be required to remain at home for the infectious period.
● Student absences will be counted as excused and staff absences will be counted as sick days.
● Students and staff not reporting to school due to pandemic related symptoms and illness are only required to call once during the illness period to report absences.

Teachers

● Reinforce student infection control procedures.
● Send students to the school nurse who appear ill.

Building Administration

● Support and endorse nursing decisions.
● Monitor and report absences to the central office.

Director of Technology

● Send out email messages and relevant information as necessary on a regular basis.
● Regular update of website.

Custodial Staff

● Ensure ample supply of sanitizing supplies and daily sanitizations.
● Take appropriate actions to minimize the risk of viral transmission in school facilities to the greatest extent possible.
● Prepare all facilities for reliable functioning as part of community response efforts (e.g., a building used as an isolation facility).
● Prepare to restore facilities to their normal use.
● Assure the provision of power, telecommunications, heat and ventilation, water, sewer, janitorial services, etc. appropriate to facilities based on their classification during an event.

Operations Staff
- Utilize absentee questionnaire and forward all attendance information to building nurse immediately (Appendix B).
- Reinforce student infection control procedures.
- Send students who appear ill to the school nurse.

School Counselors/Child Study Team
Promote students, faculty, and staff mental well-being during the event via in-services, individual and group counseling sessions.

Addressing Stigma
Stigma can affect people, places, or things. It occurs when people associate a risk with something specific—like a minority population group—and there is no evidence that the risk is greater in that group than in the general population. Stigmatization is especially common in disease outbreaks.

Example: A 2002 outbreak of severe acute respiratory syndrome (SARS) in China caused global concern. Unfortunately, fear also led to a great deal of stigma. Although there were no associated cases of SARS in America, many citizens began to avoid Chinatowns and other Asian-American communities—including Japanese, Korean, and Vietnamese peoples—throughout the United States because they believed those groups were at greater risk for spreading SARS.

Stigmatized groups may suffer psychologically and economically. They may be subjected to:

- Social avoidance or rejection
- Denial of healthcare, education, housing, or employment
- Physical violence

Stigmatizing minority groups may also distract people from focusing on the real risks in a crisis situation. When only part of a population is perceived as being affected, others may incorrectly believe they are not at risk. By assuming they are safe, majority population groups may not take important public health precautions, unintentionally compromising their own health and well-being.

Crisis communicators must work to counter stigmatization during a disaster. Messages should reinforce real risks through accurate information and awareness. Images should reflect all people who are susceptible to getting sick. Ideally, public health messages will proactively address possible stigma before it begins. However, prepared communicators should be ready to challenge any negative stigmatizing behaviors that do emerge.

Please note that there will be no transportation home for ill students.

B. Protocol (Schools Closed & Continuity of Learning)

When necessary, the CSA will activate the response plan.

Main Office
- CSA closes the school when it is identified by the state; any non-academic events will be cancelled as well.
• Send out messages through social media channels, email, the district website, and radio message informing parents that schools are closed; encourage school community to refer to handbooks, the school calendar, and school website for additional information.
• CSA will provide updates and the latest research information to staff, students, and parents via the district website, email, and press releases.

School Nurses
• Check, monitor, and respond to voicemail and email messages on a daily basis.
• Provide health updates to central administration for posting on social media channels and district website.

Teachers
• Check, monitor, and respond to voicemail and email messages on a daily basis.
• Track attendance and grade work submitted through continuation of the learning process.
• Log pupil, parent, staff contacts.
• Prepare lesson plans for the recovery phase.
• Complete reports as necessary.

Administration/Supervisors
• Implement their Continuity of Education/Operations services plan.
• Check, monitor, and respond to voicemail and email messages on a daily basis.
• Monitor staff health and work performance.
• Complete reports as necessary.

Director of Technology & Family Coordinator
• Send out messages and relevant information as necessary on a regular basis.
• Regular update of district website.

Custodial Staff
• Restock ample supply of sanitizing supplies.
• Take appropriate actions to minimize the risk of viral transmission in school facilities to the greatest extent possible.
• Prepare all facilities for reliable functioning as part of community response efforts (e.g., a building used as an isolation facility).
• Prepare to restore facilities to their normal use.
• Assure the provision of power, telecommunications, heat and ventilation, water, sewer, janitorial services, etc. appropriate to facilities based on their classification during an event.

School Counselors
• Counselors will check, monitor, and respond to voicemail and email messages on a daily basis.
• Psychological first aid will be provided as necessary.
DELIVERY OF VIRTUAL & REMOTE INSTRUCTION

To ensure compliance with N.J.A.C. 6A:32–8.3, our instruction will incorporate the following:

- Grades 1-12: at least 4 hours per day of instructional time
- Kindergarten: at least 2.5 hours per day of instructional time

**Grades Pk-4:**

- Each day, students in general education and special education access a 20 minute instructional video from Google Classroom for one of their core academic classes and view during its scheduled 1-hour class period.
- During the remaining 40 minutes, students access the classwork handout from Google Classroom and complete using guidance from the video and any other resources.
  - Students may submit assignments as a Google document through Google Classroom.
  - Students may complete work on loose-leaf and submit photos of assignments via Google Classroom.
- Students submit what they have completed by the end of the 1-hour class period. This will count as their attendance and will be graded for completion and accuracy.
- Teachers of the course are available via phone or Zoom during the 40 minutes following the video to provide “office hours” for students. Students can google chat, text, or dojo in to ask questions of their teacher.
- Fellows/tutors schedule time to support students with completing work.
- Students who do not have internet access are provided with packets. Packets are emailed or picked up by parents on food distribution days. Parents schedule a time with the teacher to provide direct support to students without internet access.
- The i-Ready diagnostic will be used to measure students progress toward meeting the standards.
- Sample schedules:

**Grades 5–8:**
GOLCS has differentiated instructional time by creating a schedule that lends itself to the flexibility that is needed during remote instruction. Classes begin at 9 am, with a 15 min homeroom period where students are accounted for attendance and then given school-wide updates. Students receive 45 minutes of instruction in all core classes including specials. Tutorial sessions are embedded in Math and English virtual classes.

Our curriculum has been reworked to meet the needs of our scholars virtually. We differentiate our approach to instruction and leverage the support of our fellows/tutors to add small group instruction in class discussions, writing, and math instruction. Teachers conduct daily intellectual preparation meetings with the fellow teams that support their classes and share the learning targets and instructional strategies. In the schedule, independent work time for students to complete assignments from their class instruction and meet with their fellow/tutor for guided support has been embedded. Furthermore, teachers host office hours to meet with specific students to provide additional support. Student learning is measured by grading daily exit tickets and analyzing bi-weekly assessment data.

**General Schedule: 5–8**
Grades 9–12
Students attend math, English language arts, English language arts tutorial, history/social studies, science, Spanish, and art classes with their regular instructors via Zoom for 30 minutes each between 9:00 am and 1:20 pm. Students complete wellness assignments and physical activity logs for physical education credits. After 1:20 pm, students attend extended office hours with their teachers and tutors and complete independent and group assignments. Live Zoom classes include formative assessment, guided questioning, and class discussions, while short lectures and direct instruction are provided as videos for homework. Students are assigned independent computer-adaptive math problems for math tutorial to keep learning continuous and targeted while tutors support differentiation during regular math classes.

The shortened classes and extended office hours are key to differentiating academic and social emotional support for students who need it most. Within the Zoom classes, breakout rooms are used to provide differentiated small-group instruction, often co-facilitated by fellow tutors or academic support staff. Teachers meet regularly with fellows to ensure alignment and preparation, while school leaders regularly observe classes and provide meaningful feedback to instructors.

Learning is assessed through classwork, questioning, exit tickets, quizzes, and tests during class time, as during normal school, and assessment data is analyzed as part of the assessment cycle in meetings between teachers and school leaders.

Below is a class schedule for scholars. Room numbers are not relevant during remote instruction.

**Great Oaks Legacy Charter School**

*Health-Related School Closure & Ch. 27 Plan: October 2021*
Remote Instruction & Student Needs: Students With Disabilities & English Language Learners:
The delivery of remote/virtual instruction and related services to implement IEPs for SWDs to the
greatest extent possible include google and Zoom classrooms. Within Google and Zoom classrooms,
teachers present the lesson content at a rate that promotes learning while providing guided
instruction. Supplementary aids in the form of tutors are present in Zoom breakout rooms to support
scholars who struggle with pacing and content. Tutors are also available to scholars during scheduled
office hours. Teachers use Computer-Assisted Instruction via platforms such as Nearpod, Star 360, and
Learning Ally to monitor learning and make instruction interactive. Additionally, scholars receive google
chrome extensions to support accommodations within their IEP such as text to speech, speech to text,
screen overlay, screen contrast, and grammar. Lastly, students participate in online blended learning
programs such as Star 360 and Aleks; adaptive programs that respond to students’ individual learning
needs and quickly and accurately determine what a student knows to teach the student what they are
most ready to learn. SWDs that do not have internet access are provided with wifi hotspots.

ATTENDANCE POLICIES & PRACTICES
Elementary School Attendance Grades Pk–4:
Overview: As part of the Remote Learning Plan, attendance will be taken to discern that students and
families are meeting the instructional seat minutes necessary for tracking academic progress and that
promotion decisions are accurate for each student.

Expectations: Teachers take attendance every school day on PowerSchool by 3:30 pm. Operations
leadership verifies attendance by 4:00 pm each school day. Students will be marked present by
meeting the following criteria:

<table>

14. What did you have for dinner last night / lunch today / breakfast this morning?
15. Is there anything you need right now?
Notes:

1. If students have not completed the minimum expectations by 3:30pm, teachers place a call to families to discuss ability to complete the expectations.
2. Students are allowed to make up missed printed packets, and teachers adjust student attendance record.
3. Online remote learning:
   a. If families are able to complete the expectations within 72 hours, teachers will email Operations to manually adjust the student attendance record to Present.
   b. For families regularly unable to complete the expectations daily, teachers may assist and create adjusted deadlines and may allow these unique situations to be marked as present and checking completion the following day.
   c. If parameters are not met in the given time, teachers email Operations to adjust student attendance to Absent.
   d. Tardies will not be taken during Remote Learning and closure. Students are either marked absent or present.
4. If teachers are unable to contact parents for more than 48 hours and students have not completed work for more than 72 hours, teachers communicate directly with the campus Dean. If the campus Dean cannot communicate with parents within 48 hours, the Dean contacts the Social Worker and School Director for support.

Middle School Attendance – Grades 5-8:

Expectations: Students are required to attend Zoom classes from 8:45 to 1:30. Tutorial and Teacher Intervention and office hours are scheduled from 1:30 to 3:45. Students are marked present for the day if they attend a minimum of 3 class periods. Students can make up any missed assignments and are excused from classes for technical issues such as internet failure.

Notes:

1. For families regularly unable to meet expectations daily, teachers may assist and create adjusted deadlines and may allow unique situations to be marked as present by checking completion the following day.
2. If parameters are not met in the given time, teachers email Operations to adjust student attendance to Absent.
3. Tardies are not recorded during Remote Learning and closure. Students are either marked absent or present.
The campus Operations Managers emails a daily morning and afternoon attendance report. Leadership team members are assigned to specific students to monitor student engagement and participation. After reviewing attendance reports, team members immediately contact absent students in order to monitor the student’s general wellbeing and to identify potential barriers that led to the student’s absence. If staff members are unable to contact parents for more than 48 hours and students have not completed work for more than 72 hours, teachers communicate directly with the campus Dean. If the Dean cannot communicate with parents within 48 hours, the Dean contacts the Social Worker and School Director for support. All updates regarding the student are logged into Dean’s List and shared with the grade level team.

**STUDENT ACCESS TO TECHNOLOGY**

As a 1:1 school, GOLCS will provide a free Chromebook to any student who needs one.

All GOLCS families are surveyed to assess their student’s technology needs. GOLCS inquires about each student’s access to a laptop computer, the current “health” of their personal or GOLCS issued laptop computer, and access to the internet. In addition, families will be provided with a technology self-checklist to identify issues with GOLCS-issued hardware and software/applications as well as orientation needs. Chromebooks are distributed by GOLCS to students accordingly to close the gap of students in need of technology. Our IT support team will provide orientation documentation and ongoing monitoring and service throughout the school year to repair or replace damaged technology.

Students in need of a laptop are asked to pick up their assigned laptop (and other required hardware) on an assigned date at their school. If unavailable on the assigned date, GOLCS will make arrangements for a special pick-up. At the time of issue, the student’s name will be recorded next to the laptop serial number for inventory tracking purposes.

For families without the resources to acquire internet access, GOLCS will issue wi-fi hot spots. For the 2021-2022 school year, GOLCS will continue efforts to reconfirm technology needs for returning students and ensure that all students receive Chromebooks if needed to begin the school year.

**DISTRICT PLAN FOR MEASURING & ADDRESSING DIGITAL DIVIDE**

GOLCS provided all students that requested a computer with a chrome book that can be used to access online classes and materials. GOLCS will open select campuses twice per week for students to receive lunch and retrieve printed instructional materials. In terms of network access, GOLCS has provided and will continue to provide all students and families with information to pursue acquiring either discounted or free Internet services within the city of Newark, New Jersey.

**STUDENTS WITH DISABILITIES**

Delivery of remote instruction to implement Individualized Education Plans (IEPs): The delivery of remote/virtual instruction to implement IEPs for SWDs to the greatest extent possible includes:
● **Google Classrooms**, where Certified Special Education Teachers present the lesson content at a rate that promotes learning while providing student-directed instruction;

● **Zoom classrooms**, where additional student-directed instruction occurs to engage students in the learning process by linking lesson content to prior learning, personal experiences, and cooperative learning;

● **Illuminate Education platform**, where students are assigned work independently from other students.

● GOLCS has also instructed students to use online google tools to support their instruction; for example, the voice typing feature to support their typing skills.

● Additionally, students participate in online blended learning programs such as **i-Ready**, which is an adaptive program that responds to students’ individual learning needs, and **Aleks** which uses adaptive questioning to quickly and accurately determine what a student knows and does not know and teach the student what they are most ready to learn.

● SWDs that do not have internet access are provided with paper-based packets to access the materials.

**Methods used to document IEP implementation:**

Related remote services are provided through virtual and online platforms and recorded on a weekly basis by all providers within the school district on a district owned tracker and on our Easy IEP platform. Certified Special Education Teachers are making meaningful accommodations and modifications virtually for SWDs as per each student's IEP, with student progress being monitored by online platforms. Additionally, teachers provide students with individual and small-group instruction, flexible schedules to respond to student and family requests, frequent breaks using a timer, adequate time for work completion, different approaches to meet each student's learning needs, and providing students immediate academic performance feedback to explain what is correct or incorrect with regard to student responses.

**Protocol for case manager engagement with families to ensure services align with IEPs:**

Case Managers contact families on a weekly basis to ensure that families are supported, and that all services outlined in student IEPs are being implemented. Case managers document and track the communication on a weekly basis. Furthermore, students not engaging and flagged by parents and/or staff receive additional support from Case Managers and leadership teams.

**Protocol for virtual IEP meetings and evaluation meetings:**

Virtual IEP meetings occur through the utilization of electronic communication or a virtual online platform such as Zoom. For initial evaluations and reevaluations, all aspects of the process that can feasibly be completed during the school closure are completed using an online platform, and remaining aspects such as needed assessments will be completed when the school resumes. GOLCS conducts virtual IEP meetings using the most feasible platform identified by families.

During remote meetings, the case manager ensures that all pre-conference activities are successfully completed within required timelines, determines the date/time/location of the IEP meeting with active
participation of parents/families and other necessary team members, prepare written notice to the IEP team (including parents/families) prior to the meeting, ensures time allocated for IEP meeting is sufficient by collaborating with entire IEP team, prepares an agenda for the meeting and arranges accommodations for parents as necessary (e.g., interpreter or translator).

During remote meetings, there is an introduction of IEP team participants, the purpose of the meeting is stated, parents/families are provided the opportunity to ask questions, the teachers and team dive into the present levels of academic achievement and functional performance, the determination of any additional special factors, accommodations and modifications, delivery of instruction and the placement in the least restrictive environment.

ENGLISH LANGUAGE LEARNERS

District provision of ESL and bilingual education to meet the needs of ELL:

K–12 ESL Teachers are responsible for:

- Providing academic language instruction and support for English Learners for their specific proficiency level needs.
- Communicating with students regularly to support their distance learning needs, both academically and social/emotionally.
- Communicating with families as needed to support them in this process of distance learning.
- Directly collaborating weekly with classroom or content teachers.
- Collaborating routinely within the ESL department to plan and deliver services.

District communication with ELL families, including translation services:

K–12 ESL Teachers are responsible for:

- Making phone calls and sending emails on a week by week basis in both native language (material content translated in Spanish) and English.
- Calling each student or family guardian 1–2 times each week, for a 20–30 minute language and content support time.
- Texting each student or family guardian weekly to determine level of academic or social/emotional support.

District usage of alternate methods of instruction, differentiation, access to technology, and strategies:

K–12 ESL Teachers are responsible for:

- Collaborating weekly with classroom teachers to differentiate instruction for one subject (virtually via Zoom or Google Hangout).
- Co-planning the instruction using online support for school closure ESL resources such as Education.com, BrainPop, ESL Library, Kahoot!, Quizlet, and Reading A–Z to include language development opportunities.
- Creating pre-recorded lessons with language-specific mini-lessons that support the content learning that will be included in the instruction given by the teacher (videos).
● Providing insight into instructional modifications, such as visual supports, specific academic language, background building, etc.
● Supporting daily oral language practice opportunities.
● Engaging students through one-on-one conversations or small groups at least 2 times each week to support their classroom learning needs targeted at their language proficiency level (using Zoom or Google Hangout).
● Checking-in with each student daily to address any immediate needs via the classroom platform communication tool (Google Classroom).
● Developing further instruction, resources, and/or materials for students on an as-needed basis.
● Collecting evidence of student mastery or growth toward mastery of specific academic language needs.

SAFE DELIVERY OF MEALS

GOLCS will provide 3-day meal packs to all families weekly every Tuesday and Fridays at selected GOLCS campuses between 10am-12pm. Maschio’s Food Service workers, 24/7 Security, and at least 1 GOLCS staff member will be present on food distribution days.

GOLCS will continue to provide meal service to those families in need, and families in need of food will be directed to one of the Newark Public Schools providing food if needed. Each campus will communicate to families regarding food distribution in the following methods:

● Blast email
● Flyer distributed at food events on Tuesdays & Fridays
● One Call
● Social Media outlets

(Policy #’s - 8500 Food Service; 8505 Wellness and Nutrition; 8550 School Meal Program Arrears; 8540 Free or Reduced-Price Lunches/Milk).

The School Business Administrator will arrange for food distribution as necessary. Non-perishable items will be provided to students who qualify for free meals. GOLCS has confirmed that its vended-meal partner, Revolution Foods, and its Food Service Management Company, Maschio’s, both have business continuity plans in place to protect staff and students from the possibility of infection and to ensure continuous food service while school is in session. In the event of a closure lasting longer than 2 days, GOLCS food vendors will arrange for breakfast and lunch deliveries on an alternating schedule. Students’ families will be contacted by phone and text message with a date and time for them to visit the school and collect multiple days’ breakfast and lunch to take home, along with instructional materials.

FACILITIES

Outline of building maintenance throughout extended period of closure:
Both the GOLCS Legacy and High School campuses will be utilized for food distribution on Tuesdays and Fridays, and Clean Sweep will visit each of those days at both of those campuses to clean the spaces that were used thoroughly.

Once non-essential workers can return to schools in-person, campus custodians will be able to return to ensuring daily cleaning and sanitizing responsibilities.

Additionally, district leadership is walking through each building at least once per week to inspect for urgent concerns, and to verify property and security.

SUMMER PROGRAMMING

Extended School Year (ESY) for students with disabilities including how ESY will be delivered:

Extended school year for students with disabilities will take place before the beginning of the school year as part of an extended summer school offered to general education students and students with disabilities. Summer school instruction will be delivered remotely or at school depending on our reentry plan for staff and students. Students will participate in at least 2 hours of ELA and Mathematical instructional standards that address foundational skills needed for the next grade.

Assessment of learning loss and an initial plan for potentially addressing learning loss:

Learning loss will be addressed during the summer and throughout the school year providing an intensive instructional program based on diagnostic data. Diagnostics will be given in June and July during summer sessions to identify student strengths and weaknesses as it relates to current grade level learning expectations.

Summer session I will begin during the first two weeks in June, Summer Session II will begin the last two weeks in July and continued intervention supports to address learning loss will take place throughout the school year. Diagnostics will be given every six weeks to measure student success toward meeting grade level learning loss. Schedules will be designed to incorporate additional time in ELA and math blocks; in addition to the following:

- Tutorial support that will focus on reviewing the most essential prerequisites to support with building student content knowledge.
- Providing students with targeted additional intervention support before and after school from September–December. Support from January–May will be based on benchmark and unit assessments.
- Creating modified schedules for the first few months of the school year with longer blocks for addressing missed learning standards and content that are prerequisites for future learning.
- Providing students who need additional reading support double doses of guiding reading instruction.

Plans for 2022 Graduation Ceremonies

GOLCS will determine or plan for virtual graduations in the event of virtual or remote instruction for elementary, middle, and high school students.

C. Other Core Operations

Great Oaks Legacy Charter School
Health-Related School Closure & Ch. 27 Plan: October 2021
Payroll
● The Central Business Office will continue regular functioning from an outside location if necessary.

Food Service
(Policy #'s - 8500 Food Service; 8505 Wellness and Nutrition; 8550 School Meal Program Arrears; 8540 Free or Reduced-Price Lunches/Milk)
● The School Business Administrator will arrange for food distribution as necessary. Non-perishable items will be provided to students who qualify for free meals.
● GOLCS has confirmed that its vended-meal partner, Revolution Foods, and its Food Service Management Company, Maschio’s, both have business continuity plans in place to protect staff and students from the possibility of infection and to ensure continuous food service while school is in session.
● In the event of a closure lasting longer than 2 days, GOLCS food vendors will arrange for breakfast and lunch deliveries on an alternating schedule. Students’ families will be contacted by phone and text message with a date and time for them to visit the school and collect multiple days’ breakfast and lunch to take home, along with instructional materials.

Recovery
When necessary, the Chief School Administrator will initiate the recovery process. School closure days as a result of this pandemic will not result in an extended school year if permissible per NJDOE; ten-month staff will remain through June 30th to complete any unfinished work.
Those students who can document illness to self or a member of the immediate family will have one additional month to make up missed work; extenuating circumstances will also be taken into consideration.

Main Office
- Identify healthy staff to determine the feasibility of reopening schools.
- The CSA will provide updates and the latest research information to staff, students, and parents via the district website, social media channels, and email.
- If appropriate, CSA will announce that Great Oaks Legacy Charter School is to reopen.

School Nurses
- Each School Nurse will continue with surveillance reporting procedures, conduct student as well as staff assessments, communicate with parents/guardians as well as provide updates to administration.
- Each school nurse will serve as the primary authority for sending home sick staff and students. Students and staff deemed ill and having pandemic related symptoms will not remain at school and should return only after their symptoms resolve and they are physically ready to return to school; they will be required to remain at home for the infectious period.
- Student absences will be counted as excused and staff absences will be counted as sick days.
- Students and staff not reporting to school due to pandemic related symptoms and illness are only required to call once during the flu period to report absences.
- Follow up with students who are deemed at high risk for pandemic related complications.
- Physical assessment and needs of students who made contact with school nurse during the response phase.

Teachers
- Reinforce student infection control procedures.
- Send students to the school nurse who appear ill.
- Each classroom room teacher must maintain the structure of the class but have the class engage in a processing activity such as journal writing, discussion related to the event, tie in of content matter to event; this must happen for a minimum of one day.
- Each classroom teacher should acknowledge the loss and/or event.

Administration/Supervisors
- Support and endorse nursing decisions.
- Monitor and report absences to CSA.
- Serve as the primary contact person and authorizing body for all activities.
- Maintain contact with parents/guardians as well as school community keeping them apprised of what the building is doing for the reestablishment of a positive school climate.
- Monitor grading/record keeping and assist in the reestablishment of a positive school climate.

Custodial Staff
- Ensure ample supply of sanitizing supplies and daily sanitizations.
- Ensure appropriate actions are taken to minimize the risk of viral transmission in school facilities to the greatest extent possible.
• Prepare all facilities for reliable functioning as part of community response efforts (e.g., a building used as an isolation facility).
• Prepare to restore facilities to their normal use.
• Assure the provision of power, telecommunications, heat and ventilation, water, sewer, janitorial services, etc. appropriate to facilities based on their classification during an event.

Operations Staff
• Utilize absentee questionnaire and forward all attendance information to building nurse immediately (Appendix B).
• Reinforce student infection control procedures.
• Send students to the school nurse who appear ill.

School Counselors
• Promote students, faculty, and staff mental well being during the event via in-services, individual and group counseling sessions.
• Assessment of functioning and needs of students via referral system.
• Follow up with referrals.
• Follow up with students who called in/made contact during response.
• Stabilization groups will be conducted for students who cannot cope in the classroom setting.
• Coping groups will be conducted for the purpose of preventing post-traumatic stress.
• Conduct seminars for parents related to support, information, and referral services.

Reactions to Stress

Managing Fears and Anxiety around Coronavirus
As information about Coronavirus unfolds, there can be a wide range of thoughts, feelings and reactions. Below is some helpful information.

Common Reactions:
Please recognize that there can be a wide range of reactions and that over the next few days or weeks you may experience periods of:
• Difficulty concentrating and sleeping
• Anger
• Hyper-vigilance to your health and body
• Anxiety, worry, panic
• Feeling helplessness
• Social withdrawal

Ways to Manage Fears & Anxieties:
• Get the facts. Stay informed. For further information, see the dedicated CDC website. https://www.cdc.gov/coronavirus/2019-ncov/summary.html
• Keep things in perspective. Limit worry and agitation by lessening the time you spend watching or listening to upsetting media coverage. Although you’ll want to keep informed — especially if you have loved ones in affected countries — remember to take a break from watching the news and focus on the things that are positive in your life and things you have control over.
• Be mindful of your assumptions about others. Someone who has a cough or a fever does not necessarily have coronavirus. Self-awareness is important in not stigmatizing others in our community.

• Stay healthy. Adopting healthy hygienic habits such as washing your hands with soap and water or an alcohol-based hand sanitizer, frequently, and certainly after sneezing or before/after touching your face or a sick person. Cover your mouth and nose with a tissue or your sleeve (not your hands) when coughing or sneezing. Avoid touching your eyes, nose and mouth. Avoid contact with others who are sick and stay home while sick.

• Keep connected. Maintaining social networks can help maintain a sense of normalcy, and provide valuable outlets for sharing feelings and relieving stress.

• Seek additional help. Individuals who feel an overwhelming worry or anxiety can seek additional professional mental health support. You may call your school counselor (who will be available as usual when school is open and via phone and email if school is closed).

Buildings and Grounds
• The school will be sanitized under the direction of the COO.

SAMPLE LETTERS

March 5, 2022
Dear Families,

We know that many of you have heard about the Novel Coronavirus (nCoV) transmission rates in Essex County. The health and safety of our scholars, staff, and families is our number one concern, and we are monitoring information coming from local, state, and federal health authorities closely.

There are no plans to close schools at this time. This is an extreme measure that can be disruptive to day-to-day life, and the decision to implement will be at the direction of public health experts.

In our schools, we will continue to follow all official health and safety guidelines and practice general flu prevention measures including:

- Covering coughs or sneezes with a tissue or sleeve.
- Washing hands regularly.
- Avoid touching your face.
- Avoid close contact with people who are sick.
- Get your flu shot – it’s never too late.
- Stay home if you’re feeling sick. Call your doctor and let them know your symptoms and travel history.

Please visit www.cdc.gov at any time to review important updates. Great Oaks Legacy Charter School will continue to clearly communicate with our school communities about our ongoing efforts regarding the coronavirus.

Sincerely,

Jared Taillefer  
Executive Director
Dear Great Oaks Legacy Charter School Parents & Community Members:

Essex County health officials have ordered the closure of schools as a result of a pandemic outbreak in our county. All schools are immediately closed until further notice. Children should stay home. The closures affect all programming at the school, including before- and after-school activities, all athletic and extracurricular practices and competitions, and weekend events.

We know this is a difficult time for our community and our hearts go out to those who are ill. We are working closely with health officials to deal with the situation and will keep parents updated with any important information.

Because a pandemic is easily spread from person-to-person, it is unsafe for large groups of people to gather and children should stay home. The purpose of closing schools is to decrease contact among children in order to decrease their risk of getting sick and to limit the spread of infection. During this time, children and adults should stay away from other people and groups, as much as possible. Health officials also advise people should not gather in other locations such as homes, shopping malls, movie theaters or community centers.

Parents can help protect their children and prevent the spread of a pandemic as they would colds and other flu by taking the following precautions:

- Teach your children to wash hands frequently with soap and water for 20 seconds. Be sure to set a good example by doing this yourself.
- Teach your children to cover coughs and sneezes with tissues or by coughing into the inside of the elbow.
- Teach your children to stay at least three feet from people who are sick and stay home from work or school if you are sick.

Individuals who need medical care should call their medical provider to report their illness prior to seeking care at a clinic, physician’s office, or hospital.

We will continue to update you on the status of our schools as soon as information is available.

Sincerely,

Jared Taillefer,
Executive Director

Appendix A

What is Pandemic?
A “pandemic” is a disease that spreads all over the world and affects a large number of people. If you are caring for a loved one during a pandemic, it’s important to take steps to protect yourself and
others. Always follow the most current advice of the U.S. Department of Health and Human Services and your local Health Department.

Prevention:
These healthy habits will help keep you and others from getting and passing on the virus:

- Clean your hands often with soap and water or alcohol-based hand sanitizer.
- Cover your mouth and nose with a tissue when you cough or sneeze and clean your hands afterward. Put used tissues in a wastebasket.
- Cough or sneeze into your upper sleeve if you don’t have a tissue.
- Keep your hands away from your eyes, nose and mouth to prevent germs from entering your body. Also, a person with signs of the virus should stay home from work, school and errands and avoid contact with others.
- **Disinfectant:** 1 gallon water, 1/4 cup bleach, Mix up a fresh batch every time you use it.
- **OBTAIN A FLU SHOT.**

**To limit the spread of germs and prevent infection:**

- Teach your children to wash hands frequently with soap and water and model the correct behavior.
- Teach your children to cover coughs and sneezes with tissues and be sure to model that behavior.
- Teach your children to stay away from others as much as possible if they are sick.
- Stay home from work and school if sick.

Caregivers should always wash their hands before providing care. Afterward, wash again and apply alcohol-based hand sanitizer as well. Follow these steps for proper hand hygiene:

- Wet hands with warm, running water and apply liquid soap.
- Rub hands vigorously for 20 seconds, covering all surfaces and fingers.
- Scrub nails by rubbing them against the palms of your hands.
- Rinse your hands with water.
- Dry your hands thoroughly with a paper towel and use it to turn off the faucet. A shared towel will spread germs.

Preparation:
You can prepare for a pandemic now. You should know both the magnitude of what can happen during a pandemic outbreak and what actions you can take to help lessen the impact of an influenza pandemic on you and your family. This checklist will help you gather the information and resources you may need in case of a flu pandemic.

**Tips to plan for an extended stay at home during a flu pandemic.**

- Ask your employer about how business will continue during a pandemic.
- Ask your employer if you can work from home during a flu pandemic.
- Plan for possible reduction or loss of income, if you’re unable to work or your place of employment is closed.
- Check with your employer about leave policies.
- Plan home learning activities and exercises. Have materials, such as books, on hand.
• Plan recreational activities that your children can do at home.

**Items to have on hand for an extended stay at home:**

During a pandemic, if you cannot get to a store, or if stores are out of supplies, it will be important for you to have extra supplies on hand. This can be useful in other types of emergencies, such as power outages and disasters.

**Non-perishable foods**
- Ready to eat canned meats, fruits, vegetables, soups
- Protein or fruit bars
- Dry cereal or granola
- Peanut butter and jelly
- Dried fruit, nuts, trail mix
- Baby formula
- Crackers
- Canned juices
- Bottled water
- Canned or jarred baby food
- Baby formula
- Pet food

**Health and emergency supplies**
- Prescribed medical supplies such as glucose and blood pressure monitoring
  - Soap and water or alcohol based hand wash
  - Medicines for fever, such as acetaminophen (aspirin) or ibuprofen (Motrin)
- Thermometer
- Antidiarrheal medications
- Vitamins
  - Fluids with electrolytes, such as Pedialyte®
  - Flashlight with extra batteries
  - Portable radio with extra batteries
  - Manual can opener
- Garbage bags
- Tissues, toilet paper, disposable diapers

**To plan for a pandemic:**
- Ask your doctor and insurance company if you can get an extra supply of your regular prescription drugs.
- Talk with family members and loved ones about how they would be cared for if they got sick, or what will be needed to care for them in your home.
- Volunteer with local groups to prepare and assist with emergency response.
- Get involved in your community as it works to prepare for a pandemic.

Appendix A1

Plan Distribution:
Please store and keep this plan in a safe place where you can access it if and when necessary.

Grading Expectations (if schools are closed):
Teachers are asked to grade assignments as they come in via email, while schools are Google classroom, or other school platform.

Work Related Responsibilities During Extended School Closures:
Teachers are asked to maintain contact with students via email, and/or Google Classroom, or email while school is closed; logs are to be maintained.

Student Expectations and Communication/Rubrics:
Teachers are required to communicate grading expectations for assignments in the case of an extended school closure.
Appendix B

Absentee Questionnaire for COVID-19

This form is to be completed by office staff if/when he/she receives a phone call for illness related reasons. This information is to be forwarded to the school nurse for informational purposes only.

Student Name: ________________________ Grade:________ Date: __________

Does your child:

1. have a fever
   Yes ______ (Temp.: _____) No _______

2. have a cough
   Yes ______ No ______

3. shortness of breath

SAMPLE KEY MESSAGES FOR SCHOOL OFFICIALS – OUTBREAK

● We know this is an anxious time for our community and our hearts go out to those who are ill. We are working closely with local health officials to deal with the situation and will keep parents updated with any important information.

● At this time, under the guidance of the county Health Department, we believe students can safely attend classes and schools will remain open. Our thoughts are with all of our families and children who are affected.

● If the pandemic continues to spread and more students become ill, health officials may need to close schools for an extended period of time.

● The purpose of closing school will be to decrease contact among children in order to decrease their risk of getting sick and to limit the spread of infection. If schools are closed, children should stay at home.

● We urge parents to plan now for the possibility of schools closing. Arrange day care, and homeschooling.

● Parents can help protect their children and prevent the spread of a pandemic as they would colds and other flu by taking the following precautions:
  ● Teach your children to wash hands frequently with soap and water for 20 seconds. Be sure to set a good example by doing this yourself.
  ● Teach your children to cover coughs and sneezes with tissues or by coughing into the inside of the elbow.
  ● Teach your children to stay away from people who are sick and stay home from work or school if you are sick.
SCHOOL CLOSURE
Sample Press Releases

● Essex County health officials have ordered the closure of schools as a result of a pandemic outbreak in our county.

● Schools may be closed for an extended period of time.

● We know this is a difficult time for our community and our hearts go out to those who are ill. We are working closely with health officials to deal with the situation and will keep parents updated with any important information.

● Because a pandemic is easily spread from person-to-person, it is unsafe for large groups of people to gather and children should stay home. The purpose of closing schools is to decrease contact among children in order to decrease their risk of getting sick and to limit the spread of infection.

● During this time, children and adults should stay away from other people and groups, as much as possible. Health officials also advise people should not gather in other locations such as homes, shopping malls, movie theaters or community centers.

● Parents can help protect their children and prevent the spread of a pandemic as they would colds and other flu by taking the following precautions:
  ● Teach your children to wash hands frequently with soap and water for 20 seconds. Be sure to set a good example by doing this yourself.
  ● Teach your children to cover coughs and sneezes with tissues or by coughing into the inside of the elbow.
  ● Teach your children to stay at least three feet from people who are sick and stay home from work or school if you are sick.
OVERALL DEMOGRAPHIC PROFILE

### Enrollment Trends by Grade

This table shows the number of students enrolled by grade for the past three school years. Any students enrolled outside of the grades offered will be included in the total enrollment.

### Enrollment Trends by Student Group

This table shows the percentage of students by student group for the past three school years. Note that 2019-20 is the first year that data was collected for non-binary/undesignated gender and, as a result, the 2019-20 data may not be a true representation of the student population. Additionally, to protect student privacy, gender percentages for 2019-20 are rounded to the nearest 0.5.
